

# DISSEMINATION EVENT

AVEIRO, 28 TH OCTOBER 2022

**SSINDS PROJECT - INVOLVING PEOPLE WITH DOWN SYNDROME IN THE IMPLEMENTATION OF SUSTAINABLE DEVELOPMENT GOALS THROUGH SERVICE LEARNING**

The SSinDS Project multiplier event took place on the 28th of October in the Aveiro area, at the premises of one of FENACERCI's associates – CERCIAV.

The main objective of this event been:

- to publicize the main results of the SSinDS Project and envision possible future actions to be developed within the scope of the implementation of new in-service learning projects.
- present the Brigada Verde project developed by CERCIAV with the direct participation of people with intellectual disabilities.

This event allowed not only to signal future actions/activities to be developed by this group in the area of environmental protection, but also to reflect on the importance of this type of projects in the processes of training and inclusion of the population with intellectual disabilities in the communities they belong
